*Airbus Helicopters, formerly Eurocopter, is a division of Airbus Group, a global pioneer in aerospace and defense related services. Employing approximately 22,000 people worldwide, Airbus Helicopters is the world's No. 1 helicopter manufacturer with a turnover of 6.3 billion euros. The company's fleet in service includes some 12,000 helicopters operated by more than 3,000 customers in approximately 150 countries. Airbus group is a global leader in aerospace, defence and related services. In 2012, the Group generated revenues of € 56.5 billion and employed a workforce of over 140,000.*

### **Description of the job**

For Airbus Helicopters in Donauwörth within Intellectual Property Management we are looking for an intern (m/f) for 4-6 months.

The start date is flexible.

## Tasks

### 1. PATENTS

You will help the patent Engineers in their role of technical interface between the inventors and the Patent Attorney

-You will help the inventor to describe, enrich and enlarge his invention and will communicate these elements to the Patent Attorney, so that the Attorney can write and file a patent application.

Your responsibilities will include:

- detailed analysis of the invention to get a fine understanding and to propose the best means of protection (secret, Patent, non-Disclosure Agreement, etc.)
- supporting the inventor to write a full description of his invention
- searching relevant patents in databases to estimate the freedom of use and/or the patentability of the invention before applying a patent,
- checking the patent application written by the Patent Attorney,
- helping the IP manager to decide the foreign extensions of the new patent applications, and the renewal or withdrawal of existing patents,
- preparing answers to objections notified by official Patent Examiners of the various countries where the patent applications have been filed

It would also be appreciated that you can deal with:

### 2. PATENT MONITORING

You will contribute, with the support of a network of IP Focal Points, to monitor the patents recently published:

- analysis of new patents potentially dangerous for Eurocopter
- recommendations to preserve the interests of the company

### 3. COUNSELS IN IP MATTERS

You will provide counsels regarding any kind of IP issues, to the internal or external requesters:

- patenting rules, copyrights, disclosures, incentives.

You can also contribute (preparation, animation) to IP training session organized for the Company staff.

## Skills

We are looking for candidates with the following skills:

- Enrolled student within Patent Engineering, Industrial Engineering or similar field of study
- English: fluent
- German: fluent

## Contact

We are looking for highly motivated students who would like to work within a team in a dynamic and forward-thinking sector.

Please apply with complete documents (cover letter, C.V., relevant certificates/letters of reference, current certificate of enrolment) by using our e-recruitment tool ([www.airbus-group.com/apply](http://www.airbus-group.com/apply)).

The Airbus Group is committed to achieving workforce diversity and creating an inclusive working environment. We welcome all applications irrespective of social and cultural background, age, gender, disability, sexual orientation or religious belief.
