

New! Travel card for OTH Amberg-Weiden students

Dear Students,

We are pleased to inform you that a semester travel card has been launched for OTH Amberg-Weiden students.

The Students' Union (Studentenwerk Oberfranken) has entered into an agreement with several transport providers for the semester travel card. Even better news: your student ID (with photo) will incorporate a new logo and function as your travel card, so you don't need an extra card or ticket! The semester travel card is valid for one semester at a time and will be updated when you validate your student ID card at the start of each semester.

The student union fee is **72.00 euros**; the additional fee for the semester travel card is **90.00 euros from the winter semester 2023/2024**. The total amount of **162.00 euros** is to be paid upon enrolment or re-registration each semester in the PRIMUSS portal.

You can find the legal basis for the fees on the website of the Studentenwerk Oberfranken under "**Legal basis**".

All students who pay a student union fee are also obliged to pay the semester travel card fee of 90.00 euros.

Without payment of the total amount of 162.00 euros enrolment is not possible.

You can find the legal basis for the fees on the website of the Studentenwerk Oberfranken under "**Legal basis**".

Information about the Deutschland-Ticket

The Studentenwerk Oberfranken is expecting a discount on the Deutschland-Ticket (a public transport offer valid throughout Germany) in Bavaria as well. This is to be offered by the respective public transport companies when a Deutschland-Ticket is purchased.

Unfortunately, we do not yet know exactly how this will work. The Studentenwerk Oberfranken therefore recommends that you wait before purchasing a Deutschland-Ticket, as an "upgrade" for students is to be available on 1 May.

Concerning the expected discount, the Studentenwerk Oberfranken refers to the statements of the Bavarian state government that the price for students will probably be reduced to €29 from September.

It is also planned to make it possible to offset this against the semester ticket.

We will let you know as soon as we have further information.
