

Step by Step to your goal: Ordering Articles

Please note: When searching for a journal article, you always need to start by **searching for the journal** itself.

Please log in to the [catalog](#) first. Students and OTH staff use their 4-digit OTH-ID and the corresponding password to log in. External users log in using their library number (found on the back of their library card).

Next, enter the title or keywords from the journal's title (spelled out in full, without any abbreviations) in the search bar and click "Search."

To the left of your search results, you'll now see several filters. Under "Format," you can select "Journal":

Please check the search results to see if the library has the right volume for your essay. If you're not sure, ask the library staff, we're happy to help!

If you cannot find any results or the correct edition in the collection of your home library (OTH Amberg-Weiden), select “Bayern (Fernleihe)” at the very top of the filters:

It may take a little while for results to appear, since the search includes the holdings of all academic libraries throughout Bavaria.

Once you have done this, select a result from the list that corresponds to the journal you want (the year displayed is not important at this point) and click “Per Fernleihe bestellen”:
