## Breakout-Room 5:

Overall situation – comments and suggestions

1. What works well?
2. What challenges remain? What kind of improvement do students suggest?

Comments and suggestions
I want some activities for foreign students and teaching more Ukrainian language and Russian language thank you
Well ! It's been an amazing performance by my University till now & I hope it continues for everyone and it will be easy for all the students if the university get attached with the international courses like ACCA, CIMA etc. Thank you!
Please extend the dormitory closing time. Thank you.
Please include foreign students in the extra curricular activities
A better relationship between Ukrainian students and international students ,by creating a forum to get them engaged and active
Perfect
Good
To get a app time table for the student
Nice evaluation
Krok provides intellectual lectures, because they engages in critical thinking, research, and reflection about the reality of society, I suggest the university have to upgrade their hostel conditions, because most students are living for an apartment.
My German teacher kind of makes it hard for me to understand her teaching because, she doesn't really form a relationship with her students. So, this is really kind of discouraging to attend her classes.
If possible stop the increase of fees due to inflation. it will put a lot of disinterest in incoming or potential student if this news if this news is famous.
Everything is good
We need there help cause there a lot of racism in the school
I just feel if the university can just do there best to always show support, care and companion for us the international student also.
No suggestions
Better dormitories please
No comment
Great test
Nice questionnaire
Thank you so much ,you gave me chance share my opinion
Agree
It is by no doubt to say that Krok university has one of the best staff I have ever come across as far as universities and foreign students' issues are concerned in Ukraine

and Kyiv in particular. They are welcoming, good at their jobs, understand the challenges of students, and help them come out of it and not just living them lose and confused. They Accept their shot comments and try as much to become better and outstanding within and out of the city. I am proud to be a student of this institute.
In my view, dealing should be direct with international students
I will suggest that every student should have a solution finding mindset in their academics.
The university should strengthen the guidance and relationship with students.
hope more faculty introduction and more communication
It is recommended that schools offer more language courses and give international students opportunities to participate in international conferences.
Increase exchanges between local and international students in Ukraine, such as the student partner system
Visit factories, farms
All are very good !
It will be nice to have a Ukrainian student who can deal with the payment of academic papers, it is difficult for international students to handle on their own sometimes.
thank for Ukraine goverment about the questionnaire, I hope the university can give us more opportunity to contact with the Ukraine students and Ukraine clture
Good scenery, warm people, I like Ukraine very much
It is recommended that the school expand the communication and exchange channels between the tutor and the students, and promptly help students solve many problems encountered in study and life.
Improve the living conditions, optimize courses, enhance the research level and provide more the communication platform for all students.
more English study to us
I am very grateful to the school and teachers for their help to me
No suggestions
No comments
communicate
Establish a study companion system,It is conducive to mutual language.
I suggest the Ukraine government and all university should always try and be more considerate in dictation and decision making.. They should understand a little it not easy for most of the foreigners..
The university is great
Non
The lack of compromise of students and teachers creates the perfect environment for mediocrity. Students are not capable to front Higher Education with the level of Ukrainian language they get at the end of preparative courses ( In my opinion the level acquired is A2 if being optimistic), which causes that most of the foreign students skip lectures and practices in order to avoid being ridiculized or attend to

lectures and practices but without understanding most of the content. At the end of the semester (especially in 1st and 2nd course, is a classic to observe foreigners begging teachers to let them pass. Since I've experienced it myself, I can tell that it doesn't really feel to study in a university, the sensation of being treated like an easy money object is denigrating, is like the university inherently send the message: " As long as you have the money to pay us, you can graduate and pass".

The suggestion I can give to avoid this is to improve the language courses to get at least B2. It could be also important to take their admission to university in a more serious way, it would be helpful if the university put as a requirement to give a language's exam admission before foreigners start studying in 1st course. This would make the work easier for everyone, for teachers, Ukrainian students, and of course for foreign students. The challenge of a test for admission would definitely inspire students to take the study of the Ukrainian language as a personal and professional compromise ( since they might be rejected from the university if they don't pass the language's test). With a satisfactory knowledge of the Ukrainian language, foreign students can improve their results in university, in their studies' environment, and even in their personal lives!

With expelling I don't think it nice

Mariupol State University is the best.... Slava ukriane

Mariupol state university is a university that has enlightened me more academically, especially in the field I chose and has also displayed excellence in relating with international students and I suggest that the Ukrainian government or the responsible body compliment the effort of this university because I see it competing with rest of its counterparts not just in Ukraine but around the world.

Suggestions to Ukrainian people and to the government please try to make a system in the country that when children will go to school they will learn at least basic English.Ukraine government need to put system in the school to university need to learn at least basic English.if this happened in the future Ukraine will be the education and developing ideal country of the world.believe me just learn basic English.thank you so much

behalf of our University i will like to welcome every foreign students

the foreign students office should offer internships to students

This text is very interesting because you answer about your university thanks

I am very proud to study in MDU.

My suggestion concerning international students integration at my university is as follows, in regards to my suggestion I would like international students integration process to be fixable. International students shouldn't face difficulties in taking transfers to study at my university. International students integration, should be done by the students themselves no third party should be involved in term of agent taking initiative for students enrolment should not be allowed. Concerning international integration at my university is excellent.

Tank yours

It will very helpful for international students to study all course on english first then ukrainian for those who are interested
My experience in university in Ukraine was very great mix between pleasure and disappointment but I will always keep in my mind the good part .. the problem it's not with the university but with people some of them are just barbar they act like except them they are no more people in the world.. my suggestion it's to ask a university to organized more event and make people who's live far from city know that except Ukrainian existing other people who love Ukraine thank you
Please because of corona virus we have to continue learning online
My university is one of the best and I suggest that they should introduce English courses for international students.
Our international head of department Lidiia and valarii is very good and they always help us a lot and I'm very great full to have this kinds off good teachers thank you
For international students integration I suggest that Ukrainian students and foreigner student have a group of two or three to communicate and study after lessons
I love Mariupol state university because the teachers and staffs are friendly
The social order should be improved.
I think the current situation is quite good, and I have no other comments or suggestions.
I hope to learn more about studying in Ukraine
Set up language classes and organize activities with local students. Choose a life mentor and regularly organize outdoor activities in Ukraine
Mariupol state university is my favorite university in Ukraine, international department office is working very well.
It was helpful!
Can do better
Provide a way to publish papers
It was interesting answering these questions
The school should provide orientation programs,
No comments, thank you!
No comments, THANK YOU
no comment . THANK YOU FOR ALL .
this was helpful
please take international students seriously, and provide teachers who speak english. we pay money to get the universities services, not to spend our entire day on google translate.
No comment. Everything here at university or in Ukraine is very good 🙌
Provide opportunities to communicate with Ukrainian students
Make sure, the teachers can speak English before accepting any foreign students.
I like to study at Mariupol State University
I am happy to study at Mariupol State University and I think that they work very good

I think my University is the best in Ukraine. International Office Staffs are are good and helpful.
Invite more students for study
Online is the best for a time like this.
It was a nice question and things to know about...
Good to study here
Lessons for practicing a language and trying to talk about it despite their lack of knowledge. A teacher who gives full dialogue and returns it between them and integrates Akran into foreign application rooms that will help them learn a language quickly How, either a foreigner with a Ukrainian, or creating joint work activities between a foreigner and a Ukrainian, research or topic, or punishing Ukrainian students and foreigners by cleaning together the university will also help to get acquainted and integrate better than expelling
Good questionnaire, let's hope that I was able to help and that we will be more comfortable or better followed in our academic journey
Good
this idea for me to ask students and keep in touch with them and know more about how they think about the university that study for it's helpful and give more good results. thanks
Thank you for this opportunity
In my opinion and addition of it's success, will be more better if it make specialities with different languages as english and frensh to open up more to foreign students who are unable to learn the official language of the country
Its nice to study in ukrainian
Thank you
[You know nothing Jon Snow] : Ygritte from Game of thrones
Thaks
I want to succeed in my studies ♥
the education system is very good, i like to study here in ukraine properly in odessa. I have good teachers and good colleagues help me a lot when I have some difficulty. studying in ukraine and e top, i love cities people at last. wonder
Some professors deal with us with racism And also the students who are at the university
The most important points you need to focus on are: 1. Listen to the students because we are the ones studying we know what's good for us and what's bad NOT YOU 2. We need to understand your culture 3. Activities for stress relief 4. A folder or website where we have all our lectures and work we need to complete and TRANSLATED TO ATLEAST ENGLISH. because even we learned the language after one year, when we go to the lectures WE DON'T UNDERSTAND SHIT OF WHAT THE PROFESSOR SAYS

Co-funded by the  
Erasmus+ Programme  
of the European Union

5. Try to copy your educational system from advanced countries it's a good start ( seriously talking)

And thank you for your time and this opportunity to release some steam which caused me depression for the last 6 or 8 months and have a good day ;)
