

INTERNATIONAL SUMMER SCHOOL ON SUSTAINABILITY

Learnings from the past –
building technologies rediscovered

Come and join our

International Summer School on Sustainability 2025

- Students will work on real-life projects, and profit from virtual and in situ input sessions. They will learn to cooperate in teams and create goal-driven solutions.
- We will encourage ‘thinking outside the box’, and looking for realistic, application-oriented results.
- 30 international students, several experts from theory and practice on sustainability, project management and teamwork, and a multitude of advisors and helpers come together to learn, experience, share, and implement sustainability concepts.

Logistics

Some key facts at a glance

WHEN?

- June 23 (morning) to June 27 (early afternoon)
- Arrival on Sunday, June 22

LANGUAGE REQUIREMENTS

- English language skills (min. B2)
- Summer school is fully taught in English

SCOPE

- 5 ECTS for successful completion (incl. pre-assignment, 1 intensive week, and post-assignment)

Locations

The summer school takes place in Weiden and Bärnau

Bärnau-Tachov History Park and Naturdorf Bärnau

Bärnau-Tachov History Park is Germany's largest archaeology park, featuring over 30 reconstructed medieval buildings. Visitors explore three key historical areas, including a Slavonic longhouse, a motte-and-bailey castle, and a 13th-century inn, showcasing the fusion of Bavarian and Slavonic cultures.

The park also revives medieval craft techniques through experimental archaeology, such as reconstructing Emperor Karl IV's royal court. Nearby, **Naturdorf Bärnau** demonstrates sustainable construction by building climate-neutral, half-timbered houses using only local, natural materials. This approach minimizes carbon footprint while preserving traditional craftsmanship, linking history with a sustainable future.

Ostbayerische Technische Hochschule Amberg-Weiden, Location Weiden

The **Ostbayerische Technische Hochschule Amberg-Weiden** (technical university of applied sciences) is located in the Upper Palatinate. It is home to four departments on two campuses in Amberg and Weiden, respectively, about 40 kilometers apart. The summer school will take place in **Weiden**. The university's main objective has been and still is to provide our students with a practical, theory-based education in close cooperation with our partners from business and industry.
