University of Applied Sciences Amberg-Weiden
2008

Hochschule **Amberg-Weiden**
für angewandte Wissenschaften
University of Applied Sciences (FH)

I want to welcome you at the university Amberg-Weiden.

Our university for applied sciences offers high class conditions in nineteen different courses of study to gain all the knowledge and qualification you will need later on for being successful in today's professional life. Rankings show that our university belongs to the leading institutions within the national scene of universities of applied sciences.

Hard work, responsibility, individual initiative and, finally, endurance are the requirements for a successful study. The whole team at our university will support you in whatever the can!

The main goal of your study is to obtain diversified knowledge in combination with intense work experience within your special subject. Since the question has become more complex and since the different subject areas have become more comprehensive, the technical know-how as well as the ability and readiness to work together with other people as a team gets more important.

The success of our graduates in the economic life and the great support we experience from the industry make us feel lucky and thankful. However, this is an obligation for us to guarantee our outstanding position within the university landscape for the future.

Welcome to Amberg and Weiden!

Prof. Dr. Erich Bauer
President

Welcome!

The university at one glance

Studying & Living
in Amberg and Weiden

University of Applied Sciences Amberg-Weiden
2008

Hochschule **Amberg-Weiden**
für angewandte Wissenschaften
University of Applied Sciences (FH)

The university Amberg-Weiden has many pleasant attributes:

First class conditions concerning study as well as top rankings, an excellent support system – and, not to forget, the two locations Amberg and Weiden.

Amberg is home to the department of engineering, and in Weiden, you can study business courses.

Both cities are beautiful, lively centres in the Upper Palatinate region of Bavaria:

Not too big, not too small, steeped in history and at the same time modern, conscious in tradition and liberal-minded.

Both cities are oriented towards the future as they have emerged to attractive locations for many innovative companies within the last years.

The mentality in the Upper Palatinate may be considered as a bit prim. But this really is the first impression: a second glance shows a different image – people here will help you feel comfortable.

Amberg and Weiden have many low priced shopping facilities in their city centres and surrounding areas, nice stores and pubs, clubs and movie theatres. Both cities offer much in culture, sports and lifestyle.

Of late, there is also a sporting connection between both cities: a friendship marathon between Amberg and Weiden. In September of every year, participants run the distance between both cities (42.295 km) – and then there is a fair at the finish line.

Weiden and Amberg are in the heart of Europe, and therefore build a bridge to the Eastern European states. They belong to the metropolitan region of Nuremberg.

As you can see, there are many good reasons to come to Amberg and/or Weiden to study.

One University – two cities

Hochschule **Amberg-Weiden**
für angewandte Wissenschaften
University of Applied Sciences (FH)

The roots of the city date back to the 8th or 9th century: in the year 1034, Amberg was mentioned in a document for the first time. Sometimes the city came under fire due to politic power games, but the historic city (das “Amberger Ei”) is still clearly visible nowadays and hints at the glory and commercial bloom which even then managed to hide the political turbulences.

Amberg is a region of industry and trade with a century-old tradition. Conveniently placed regarding transport facilities, the navigable river Vils and rich ore deposits were the basis for a flourishing trade during the Middle Ages. This region was some sort of “Rhur area of the Middle Ages”; a commercial cartel of European meaning.

Amberg is described in one of the oldest chronicles of the town as a “most solid sovereign residence”. Stony witnesses like the city fortifications and beautiful secular and sacral buildings connect the Middle Ages to the Renaissance up to the 19th century and show the wealth, might and pride of its residents.

Amberg was capitol of the Upper Palatinate from 1329 until 1810 – afterwards it became the “secret capitol”.

A walk through the town is like time-travelling:

The city walls with its four gates, the “Alte Veste” (i.e. an old castle), the market place with its city hall, St. Martin, St. Georg, an old church belonging to a school and the “Paulanerkirche”, the “Stadtbrille” (a building with archways that span the river Vils, shaped like glasses), linking the New Palace with the armoury, the “Regierungskanzlei”, the “Malteser” with its baroque reading room of the provincial library and the pilgrimage church “Maria Hilf” on top of a hill overlooking the city.

Focus on Amberg

Hochschule **Amberg-Weiden**
für angewandte Wissenschaften
University of Applied Sciences (FH)

As it was in the Middle Ages, the good transport routes are still one of the advantages of the location. Modern industrial firms benefit from high-tech companies and a diverse service industry. They all guarantee an economic well-being of Amberg.

Companies with international standing operate from Amberg: Siemens, Grammer, Luitpoldhütte, Deprag, Herding Filtertechnik – just to mention a few. Electrical Engineering, Mechanical Engineering, Environmental Engineering and Plastics Engineering – the industry in Amberg concentrates on innovation and progress.

Amberg as a regional centre has a number of private and enterprise-oriented services and guarantees the maintenance of a commuting area which reaches far more than Amberg and its county Amberg-Sulzbach.

Amberg is a popular city for shopping where its pedestrian area is considered an attractive shopping area with short distances. The markets on the green fields surrounding the city offer more shopping areas.

Eating, drinking, celebrating – the people of Amberg are gregarious and love to celebrate: such as the „Bergfest“ on top of Mariahilf, the festival of the Old Town („Altstadtfest“), the period of the „Bockbier“, the many parish fairs (the so-called „Kirwa“), Dult (a kind of fair), the „Krüglmarkt“ (a market where pottery is sold), the „Kneipenfestival“ (a music festival in the whole town) or many, many other cultural or sport events throughout the year. You won't have time to be bored.

Good to know:
Where to go in Amberg?

Hochschule **Amberg-Weiden**
für angewandte Wissenschaften
University of Applied Sciences (FH)

Culture and recreation:

➤ Two **cinemas** show the current blockbusters, as well as special films : Parktheater (Franziskanergasse 5, Telefon ++49 +9621/12777) und Ringtheater (Spitalgraben 2a, Telefon ++49 +9621/13111); the current programme: www.amberger-kinos.de.

On this page, there is also information to the project „Kino und Vino“ at the Club Habana (Georgenstraße 54, Telefon ++49 +172-29481489)

➤ The **city theatre** (Schrannenplatz) has a diversity of offers: theatre (drama, comedy, opera, operetta, revue, musical, dance), classical concerts and studio concerts; the season is from September till May. You can find the current programme with its dates, prices etc. on www.amberg.de. Advance sale and information point is the tourist information.

➤ The **concert in the city hall** (Marktplatz) is an interesting crossover: Sometimes classical music, sometimes modern, sometimes ethnic music or comedy.

➤ The **Amberg museum** (Zeughausstraße 18, Telefon ++49 +9621/10284) sees itself as meeting place for art, culture and history – with exhibitions to the historical development of Amberg, special shows, and the cabinet Michael Matthias Precht. Current projects: www.amberg.de; e-mail: stadtmuseum@amberg.de

➤ The „**Luftmuseum**“ in the historic „Klösterl“ (Eichenforstengässchen 12, Telefon ++49 +172-9645228) shows objects and temporary exhibitions dealing with air – art, architecture, design, engineering: www.luftmuseum-amberg.de

➤ The **summer festival in Amberg** (in the court yard of the municipal library, Zeughausstraße 1a) attracts many visitors in July and August because of its mix of music, cabaret and theatre ... - and of course it is open air. Programme under www.amberg.de; e-mail: kulturamt@amberg.de

➤ The **congress center in Amberg (ACC)** is one of the leading congress houses in Bavaria – used a lot for conferences, but also for different cultural events:

www.acc-amberg.de

Libraries:

➤ The **municipal library** (Zeughausstraße 1a, phone ++49 +9621 10-234) offers non-fiction literature, fiction, newspapers, magazines, DVDs, CD-Roms, CDs, games; a readers' café, events. Online catalogue and more: www.stadtbibliothek-amberg.de .

➤ The **gouvernement library** (Malteserplatz 4, phone ++49 +9621/60280) is a scientific general library.

Local public transport:

Information on the city bus Amberg and the transportation system of the county Amberg-Sulzbach can be found at www.znas.de .

Hochschule **Amberg-Weiden**
für angewandte Wissenschaften
University of Applied Sciences (FH)

Hochschule **Amberg-Weiden**
für angewandte Wissenschaften
University of Applied Sciences (FH)

The year 1241 is considered the birth date of Weiden in der Oberpfalz, although there is the presumption that there has been a settlement before in the year 1000.

Located directly at the intersection of two important trade routes – the Golden Road (East-Western connection) and the Magdeburg Road (from South to North) – Weiden soon became a trade and collecting point.

In the year 1531, Weiden already had 2200 inhabitants.

Two blazes within the town, the Thirty Years' War and the Black Death meant a severe setback for Weiden that could not be overcome until the end of the 18th century.

The boom of Weiden began in 1863 when the city was connected to the railway system of Germany. Important glass and porcelain industries settled there, the number of inhabitants grew steadily and at the turn of the 20th century, there were approximately 10.000 residents in Weiden.

The way Weiden presents itself with its beautifully restored historical buildings mirrors that economic boom – and is always worth a walk: the strung-out market place with its old city hall and the gable houses, the Upper and Lower Gate, the Old School Building, the „Waldsassener Kasten“, St. Sebastian and St. Michael and of recent times St. Josef with its unique art deco decor.

Focus on Weiden

Hochschule **Amberg-Weiden**
für angewandte Wissenschaften
University of Applied Sciences (FH)

After World War Two, the number of inhabitants grew to 40.000 people because of the addition of refugees and displaced people. Weiden kept that population and enlarged its economic power and infrastructure. After the Unification of Germany and the Opening of the borders to the Czech Republic, Weiden resumed its original seat in the Heart of Europe.

But in the last two decades, industry and trade changed a lot. Even if companies with a worldwide reputation such as Bauscher, Seltmann or Nachtmann are still an important main pillar for the production sector, the original mono structure of glass and porcelain has been complemented by companies of vehicle construction, polymer processing as well as micro electronics. Concerning trade – and Witt Weiden is a brand for that – Weiden was able to expand its centrality of retail and additionally add a very strong and attractive offer in services.

Many possibilities of recreation, a versatile cultural offer (from Jazz circle and Max-Reger-Tage to the Bavarian and Bohemian Culture and Business Workshops) plus the attractive shopping facilities have a positive effect past the city limits. And when the people of Weiden are going to celebrate a fair, the whole surrounding region join in.

Das „Amberger Modell“

The Caritasverband Amberg-Sulzbach (that is one of the organisations belonging to a social relief organisation initiated by the Roman Catholic Church) offers students of the university Amberg-Weiden the possibility to work for money at one of its facilities. The payment can be used for living or for financing the tuition fees.

This model is a cooperation of Caritas and the university. Beneficiaries of this project are people with a specific need for help and are activated by the social stations of the Caritas in Amberg and Weiden.

The Campus from A to Z

Hochschule **Amberg-Weiden**
für angewandte Wissenschaften
University of Applied Sciences (FH)

“Amelie”

This is a mentoring project especially for female students of engineering programmes. The University Amberg-Weiden aims to help young women with a successful final degree and to give support to a later career. Contact person is the women’s representative of the university, Dipl.-Ing. Stefanie Reil, phone ++49 +9621/482-326; e-mail: frauenbuero@haw-aw.de

Brunnenfest

The department Weiden celebrates the awarding of the bachelor degrees and the farewell of its graduates of industrial engineering and business studies with a feast, the so-called “Brunnenfest”. In an easy-going atmosphere, professors and students can ring in the new stage in life which will take the alumni professionally as well as privately in different directions.

BHS scholarship

This is a scholarship by BHS Corrugated which is designed for four semesters. It is dedicated to students of mechanical engineering, electrical engineering and industrial engineering who have extraordinary good performances and high motivation. Features: payment of the tuition fee, moneys to support overhead costs such as teaching material and living expenses (100 € per month during the first, 200 € per month during the second year of support), separately compensated internship and stay abroad, access to the learning opportunities of BHS, a mentor working at BHS. More information: mriedl@bhs-corrugated.de or u.mueller@haw-aw.de.

Cafeteria

The cafeteria in Amberg has 120 seats and opens at 7.00 a.m.; During summer, there is a “Biergarten” (open air seating area) outdoors.
The cafeteria in Weiden has 150 seats and opens at 7.45 a.m.

University of Applied Sciences (FH)

Cinerama – the cinema for students

Cinerama is a cinema for students of the university Amberg-Weiden which is organised by a group of students and employees. Always on Monday at 7.30 p.m., there is a movie shown at the Audimax in Amberg, faculty of mechanical engineering / environmental engineering. Information, questions and more:

cinerama@haw-aw.de

CUBE

„Cube“ – that is the campus magazine of the university, made by students and for students – and for all those who are interested in the life on campus:

www.cube-online.de

Counselling for start-ups

The university offers counselling for start-ups – date on request.

Contact person:

Prof. Dr. Reiner Anselstetter, phone: ++49 +961/382-175; e-mail: r.anselstetter@haw-aw.de

„Institut für Finanzplanung“ (Institute for financial planning) - scholarship

Students in Weiden in their third semester or higher can get a scholarship for a maximum of four months

With the following features: tuition fee is paid, assured internship which is separately compensated,

Entry into the learning networks of the institute, mentor at the institute.

Conditions: interested in finance and tax law. Flexibility, one's own initiative and creativity.

More information:

Institut für Vorsorge und Finanzplanung, Michael Hauer, Auf der Heide 1, D-92655 Altenstadt.

Job market online

Please refer to the homepage of the university:

You can get information about different offers – for example, internships, final theses from companies or professors, as well as job offers from companies.

Hochschule **Amberg-Weiden**
für angewandte Wissenschaften
University of Applied Sciences (FH)

Junior Expert Group (JEG)

Grammer AG has initiated the junior expert group for freshmen of the University Amberg-Weiden. They accept the costs for tuition fee for ten selected students who form the JEG for the first two semesters. This group of students will work four weeks on a project during lecture-free time and therefore is able to gain first experiences in the dialogue with experts in a company, as a member of an interdisciplinary group. Completion of this project is a presentation with an expert audience. The closing date for application is November, 30th each year. More information: Gerhard.Springs@grammer.com.

Pastoral care for students

Both departments of the university offer a pastoral care which is supported by both the Catholic and Protestant Church:
Pastoral assistend Klaus Hirn in Weiden
(++49 +961/390-830 or ++49 +961/382-201);
in Amberg pastor Heidrun Bock (++49 +9621/48590)
and Dr. Markus Lommer (++49 +9621/482-248).

Hochschule **Amberg-Weiden**
für angewandte Wissenschaften
University of Applied Sciences (FH)

Preparation course in mathematics

This course aims on one hand to repeat basic skills in math, on the other hand the student can receive a new perspective in maths. Motto: Filling the gap!

More information:

Prof. Dr. Harald Hofberger; phone ++49 +9621/482-165; e-mail: hofberger@haw-aw.de

Sporting activities

In Amberg, students have the possibility to do sports at their own gymnasium and at fixed dates: There is an offer of different sports. The use of the sports field of the German Federal Armed Forces in the “Leopoldkaserne” is also possible, each Wednesday afternoon – after registration.

In Weiden, there are some sports groups and training possibilities at a gymnasium. There is a cooperation with sports clubs in the region, mostly combined with lower fees for the students.

University of Applied Sciences (FH)

Having the international orientation of professional life in mind, the university Amberg-Weiden heartily supports stays abroad for its students. This experience can be either a semester abroad at a university (as there is a possibility to support students financially, students should rather chose one of our 38 partner universities in together 23 countries) or a practical semester at a foreign company.

The university helps in donating a grant during the study abroad, especially with the assistance of the programme "Lifelong Learning" by the European Union and by the German Academic Exchange Service.

In addition to that, there are more and more international research projects at the university, with partners in Australia, Brazil, China, England, Jordan, Egypt, Ireland or Scotland.

Visiting students and professors from foreign countries arrive on a regular basis in Amberg and Weiden. Not to forget, the many external students (currently from 19 different countries) who are enrolled at the university, – with an upward trend!

University of Applied Sciences (FH)

An effective partnership of industry and university take centre stage at the university Amberg-Weiden, aiming to advance a practice-oriented education of the students and to cross-link university and regional industry in its best. Outstanding enterprises are members of an exclusive partnership model of the university – the Partner Circle.

The **Partner Circle** is just as big as it is possible to guarantee an excellent support by the university. A diversified presence of the chosen partners in industry and numerous cooperations of companies and university have developed within a short period of time. Apart from Gerresheimer Wilden (Regensburg) and Witron (Parkstein) which are partners since the beginning, including endowed professorships, partners are: in Weiden: ATU-Autoteile Unger (Weiden), bhs-Corrugated (Weiherhammer), Cherry (Auerbach), Commerzbank (Weiden), Conrad (Hirschau/Wernberg), Grammer (Amberg), Nachtmann (Neustadt), Scherdel (Marktredwitz), Witt (Weiden), SanData (Nürnberg), Hamm AG (Tirschenreuth); in Amberg: Altium (Amberg, Sydney), Deprag (Amberg), Krones (Neutraubling), Siemens (Amberg), Sparkasse Amberg-Sulzbach, MH Rohrwerk (Maxhütte), Hans Huber AG (Berching).

Vision of this model: “Strong partners can build new horizons with their skills and ideas, together with our university these are bigger than the possibilities of a single person – profiting of all partners, employees, students and graduates. A perfect example for cooperative creativity and competence.”

Plus, there are two associations which support the university, the “**Friends of the University Amberg-Weiden**” and the “**Association to support the University in Weiden i.d. Opf.**”. Dedicated citizens, companies and institutions show their support where public funds are not available or have to be intensified.
