The set-up of the Double Degree Management and Digital Technology is financed via funds from the ERDF within the framework of the INTERREG Bavaria - Czech Republic 2021-2027 programme, as well as from funds from the Ministry of Regional Development of the Czech Republic and the own resources of the two universities via the STAR-T project (project number BYCZ 01-100). The aim of the project is to set up, pilot, evaluate and successfully implement a new, unique study programme focused on applied learning that is of great importance for the Bavarian-Czech border region. With a total budget of 411,001.25 Euro, the project runs from May 1, 2024 to February 28, 2027.
