1.2 Workload Calculation

Berechnung des Workload

According to § 8 para. 1 sentence 3 BayStudAkkV, the following applies: One credit point is based on a workload of 25 to 30 hours.

To calculate the workload, a distinction must be made between the following working hours, whereby the lecture-free period must also be taken into account (cf. justification for BayStudAkkV):

- Attendance study = hours of direct teaching
- Self-study = hours for the preparation and follow-up of the learning material
- Exam preparation = hours spent preparing for an examination event
- Examination workload = hours required to complete the examination
- Internships = hours of practical training
- Total workload = sum of hours

Example:
Module A comprises seminar classes plus exercises with 4 semester hours per week (SWS) and a practical course with 4 SWS.

Attendance:
At OTH Amberg-Weiden, the calculation is based on the assumption that attendance of a course is equivalent to one credit hour (= 45 minutes) with a full hour of work (1 hour = 60 minutes). This is based on 15 dates per semester (regardless of the actual duration of the semester).
This results in: (4 SWS seminar lessons plus exercises + 4 SWS practical course) * 15 dates in the semester * 1h = 120 h workload

Self-study:

Preparation and follow-up of lessons:	60 h
Preparation and follow-up of the internship:	60 h
Total	120 h

Exam preparation:
Approx. 3-4 weeks: 60 h

Total:
Attendance (120 h) + self-study (120 h) + exam preparation (60 h) = 300 h

Workload in ECTS points:
1 credit = 30 hours of work => 300 hours of work = 10 credits
10 ECTS credits are awarded for the module.

4 Virtual University of Bavaria (VHB), Language Center and Crediting

Virtuelle Hochschule Bayern (VHB), Sprachenzentrum und Anrechnungen

4.1 Crediting of Previous Studies

Anrechnung vorheriger Leistungen

In principle, achievements that have already been successfully completed (including internship, if applicable) can be recognized - even from an already completed first degree program. For this purpose, a corresponding application with an official grade confirmation from your previous university must be submitted to the Students` Office after enrollment at OTH. Subsequently, the respective lecturers will check whether the subjects already taken correspond to the requirements of our subjects in terms of content and scope (credit points or semester hours per week), etc.. Depending on this, recognition may or may not be granted. You can make your own assessment by comparing your previous subjects with the descriptions in the module handbook of the respective OTH program.

Since experience shows that the processing of applications can take several weeks, it is advisable to clarify the situation personally with the respective lecturer (e.g. office hours) immediately at the beginning of the semester for subjects in the first semester, so that you know at short notice whether you have to attend the lecture or not, or whether any certificates of achievement still have to be submitted. For this purpose, please bring along meaningful documents (e.g. module handbook of your previous university), which enable a comparison (excerpts also attached to the application).

4.2 Crediting of VHB Courses or Language Center Courses

Anrechnung von VHB-Kursen oder Kursen des Sprachenzentrums

For courses taken during your studies at the vhb or at the Language Center, a corresponding application for credit must be submitted to the Students` Office during the first 4 weeks of the semester. This can be downloaded from the Primuss portal and submitted to the study office and the examination board together with the relevant evidence.
